

Diane Li

FRIENDLY

My name is Diane. In spring of 2011, I graduated from Eastern Washington University with a BA in Psychology. I'm an outgoing, funny girly girl who likes colorful colors and fashion, but I am a geek at heart. I love to learn about anything and enjoying reading and watching the news. My passion is working with children and one day I would love to work with kids in the hospital. When I am not working with children, I like to listen to music, dance, eat and shop. I am frugal and am addicted to finding deals. Right now, I am focusing on working at the Boys and Girls club as a counselor and a Kid's Klub Attendant at the Gold's Gym.

Charlie Stone

SUPPORTIVE

Charlie Jenna Stone is passionate about the environment, human and animal rights, education, and roller derby. She is a Seattle native who aspires to be a kindergarten teacher and is currently in school getting an Associate in Elementary Education. She spent three years teaching high school students improvised theater (which she loved). Charlie is a full-time college student, counselor in the Voyager's room, extremely hyper, a Seattle slam poet and a future Rat City Rollergirl.

Steve Scheide

INSPIRING

Steve Scheide is a recent graduate of the University of Washington where he focused on sociology, labor studies and literature. By day he is the Kindergarten and 1st grade lead counselor for the Childcare Department. By night he is a local Seattle actor and has performed in over 20 productions around the Puget Sound area. He recently co-founded PandaMonium Children's Theater, which performs interactive adaptations of classic folktales. He continues to perform locally and is currently on the path to start Emergency Medical Technician training in January.

James Chang

DEPENDABLE

I was born and raised in California and only recently moved to King County after my graduate studies. Although I am new to the Boys and Girls Club, I've been enjoying every minute of it. The interaction and impact the Club staff makes on the members are absolutely inspiring. I enjoy working hands-on with the members as a group and also engaging the individual members for specialized attention. I look forward to applying my skills and abilities to creatively help guide each member on their path toward their full potential. My side passions include the great outdoors (especially rock climbing), meditation, drinking tea, and Tai Chi.

Leigh Jacobson

LEADERSHIP

I'm a Southern girl who has fallen in love with the Pacific Northwest! After graduating from college in Alabama, I worked on my Master of Education degree while teaching Biology and Chemistry at a high school in Arizona and then decided to move where the cloud to sun ratio was a little higher. After working in the Explorer's room for over a year, I recently became the Child Care Director, and I'm very excited for a new challenge! I really enjoy cooking (and eating!) vegetarian food, dancing, working with children, and continuing my informal education as a science nerd.
